Objective

Adaptable recent graduate of a full stack web development boot camp. Aiming to leverage personal and academic experience to successfully fill the Software Engineer role at your company. Frequently praised as hard-working by my peers, I can be relied upon to help you.

SKILLS

- HTML & CSS
- JavaScript and JavaScript Frameworks
- React
- Node.JS
- MySQL
- NoSQL (Mongo DB, Firebase, etc...)
- Various Technology Stacks (MERN)
- Ability to research documentation and third party forums
- Function as part of a team in an agile work environment
- Foster a supportive and collaborative work environment

Projects

PENSIVE - <https://github.com/TheTrepanier/pensive>

A full-fledged MERN stack application, utilizing MongoDB, Express routing, a React frontend, and Node.JS backend.

WORD GUESS GAME - <https://github.com/TheTrepanier/word-guess-game>

A simple game of hang-man built in vanilla JavaScript that makes a query to the PokeAPI.

MYSQL BURGER JOINT - <https://github.com/TheTrepanier/hamburguesa>

A basic CRUD application built using MySQL for the database, Express for routing, Handlebars for the front end, and Node.js for the server.

Professional experience

CARVANA LLC | VERIFICATION ADVOCATE

- Assist customer through the underwriting process to get them approved for a loan with Carvana.
- Function as part of a fluid and dynamic team, and flex between different roles as needed
